ITSBE26 CONGRESS - Friday 23 October 2026 (Provinciehuis, Leuven)

9h30	Welcome coffee - visits to stands & demo's (Spoor 95)					
10h00	Welcome word and opening speech (Auditorium): Mohamed Ridouani, Mayor of Leuven					
10h30	Break & refreshments - visits to stands & demo's (Spoor 95)					
11h00	(round table) Micromobility - thriving or in existential crisis (focus: role of the regulator/competent authority) (Raadzaal) (120 pers)	(break-out 1) Road charging developments in Belgium (Perszaal) (35 pers)	(break-out 2) Collective and public transport (vergaderzalen 2-3) (34 pers)	(break-out 3) Parking & enforcement (vergaderzalen 4-5) (26 pers)	(break-out 4) Autonomous I (vergaderzalen 6-7, 26 pers)	(impact pitches) Data, tools & AI (Auditorium) (220 pers)
	Moderators: Ben Atnipp (Vianova), Simon Willemsens (TND)	Moderator: Griet De Ceuster (TML) & Ludger Linneman (LLC)	Moderator: Laura Kupers (NGI/AP) & David Schoenmaekers (FOD)	Moderator: Roger Lemmens (Be-Mobile)	Moderator: Julie Mariën (MOW) & Sven Maerivoet (TML)	Moderators: Pieter Morlion (More-Lion)
	Martin Lefrancq (Brussels Mobility)	Tim Buyse (MORA) - Lessons learnt & principles going forward	Dagmara Wrzesinska (Fairtiq) - Mobile first, cards second: what Belgium can learn from Denmark's nationwide PAYG transformation	Eliott Botta (Intouch) - Smart streets, safe cities: AI and automatisation of parking- and traffic enforcement of tomorrow	Koen Schietecatte (De Lijn) - Leuven pilot project	Ann Vanclooster (MINT) - Travis
	Jelle De Keyser (Stad Antwerpen)	Peter Frambach (AGES) - Do's and don'ts for electronic vignettes	Laurent Courgey (KUBA) - Open payments	Jonathan Kreps (Sigmax) - Recent developments in enforcement	Chris Tampère (KULeuven) - How do autonomous buses and VRU interact? Evidence from Leuven	Wim Michiels (Anyways) - #NotATrafficModel
	Yessin Aattache (Voi)	Nicolas Talpe (Be-Mobile) - Future proofing the vignette: how to move from one-off payment to a smart user-charge	Thomas Hermine (BMC) - Public transport data, first successes and next steps	Frank Schermann (TollCollect) - Use of tolling data for truck parking information services	Simon Collet (LETEC) - The Walloon roadmap for AV in PT	Len Lavens (Brussels Mobility) - Use of realtime and historic ANPR data for traffic management and more
	Alexis Hiernaux (Bolt)	Heimo Haub (SkyToll) - Lessons learnt in tolling, including on transitioning				Steven Logghe (Movias) & Annelies Develtere - GADER
	Pepe Lammertijn (Hoppy)					Rodric Frederix (TML) - Traffic Scout
						Amir Bannoura (Movera) - Tools for automated driving training
12h00	Lunch break - visits to stands & demo's (Spoor 95)					
13h00	Keynote Wake-up call autonomous mobility (Auditorium) - Tim Asperges, City of Leuven					
14h00	(round table) Enforcement - impact of the private sector and AI (case studies: cycling streets, trajectory control, parking ...) (Raadzaal) (120 pers)	(break-out 5) Active and shared mobility (Perszaal) (35 pers)	(break-out 6) Electromobility (vergaderzalen 2-3) (34 pers)	(break-out 7) C-ITS (vergaderzalen 4-5) (26 pers)	(break-out 8) Autonomous II (vergaderzalen 6-7, 26 pers)	(impact pitches) Multimodality boosters (Auditorium) (220 pers)
	Moderators: Steven Logghe (Movias) & Evi Dons (Vias)	Moderator: Wout Baert (Fietsberaad)	Moderators: Philippe Vangeel (EV Belgium) & Johan Van Looy (TND)	Moderators: Kristof Rombaut (AWV)	Moderator: Julie Mariën (MOW) & Sven Maerivoet (TML)	Moderators: Stijn Vandeweyer (Arch)
	Rob Versmissen (Macq)	Pieter Morlion (More-Lion) & Emilie Gysels (Provincie Antwerpen) - digital bicycle infrastructure (focus: Fietsnelwegen - inventory, digitalisation (digital twin), and assessment of the cycling network in Flanders)	Guillaume Vanstraelen (TotalEnergies) - V2G charging project (Copper) in Gent	Frederik Bohez (Be-Mobile) - Be-Warned: Smarter Alerts, Safer Roads	Gwynne van Kaauwen (AWV) - The Tesla case, a public perspective	Kurt Marquet (KBC) - Two sides of the same coin - How KBC connects automotive and multimodal mobility
	Alessandro Heirman (Uto Technologies)	Ben Atnipp (Vianova) - Framework Regulating and evaluating shared mobility	Wout Lagae (Pleevi) - AI-powered energy management for parking hubs	Wouter Giesen (TripService) - Who guides the road users?	Isaak Yperman (Movias) - Tele-operated crash absorbers	Camille Lubon (Brussels Airport) - How simulation supports strategic mobility decisions
	Myriam Adriaensen (MOW)	Han Tambuyzer (Nazka) - well-equiped bike parkings	Tom De Kegel (Geosparc) - The future of information-driven enforcement	Stephen T'Siobbel (ERTICO) - Linking the EU and the local perspective in practice	Sven Vlassenroot (IMEC) - CCAM Proving Region (CPR)	Karl Determe (Brussels Mobility) - Asset management system
	Jan Desmeth (Sint-Pieter- Leeuw)			Pieter Leemans (Yunex) - AI traffic insights: 12 months of real-world learning		Tom Dhollander (Voetgangersbeweging) - Mobihubs in Brussels
						Pascal Sluse (SPW Mobilité) - Code de conduite MaaS
						Laura Kupers (NGI -IGN) - NAP Transportdata
15h30	Closing remarks & reception (Spoor 95)
